

Annexure 3

Tariffs

2016/2017 – 2018/2019

Medium Term

Revenue and Expenditure

Framework (MTREF)

Council

Council means the Council of the Municipality of Knysna

Agricultural Properties

Refer to owners or tenants of agricultural properties who are registered with SARS as bonafide farmers

Urban Areas

For the purposes of levying rates in urban areas such urban areas are defined to be the areas in which properties are situated in respect of which formal township establishment has taken place and to which normal municipal services are rendered due to the properties being contiguous to the bulk municipal infrastructure.

Rural Areas

For the purposes of levying rates in rural areas such rural areas are defined to be the areas in which properties are situated where either no formal township establishment has taken place or where there is no rendering of normal municipal services due to their non-contiguous position to the bulk municipal infrastructure found in the urban area.

Residential Properties

Properties are defined as residential properties provided that :

- such properties are used predominantly for residential purposes, provided that there are not more than two dwelling units per individual property;
- such rateable residences are situated on properties used or related to the care of the aged;
- such rateable residences are situated on properties used or related to educational purposes;
- such residential properties are registered in terms of the Sectional Titles Act, 1971 (now Act 95 of 1986);
- such properties are owned by share-block companies;
- such properties are not subject to provisions of Section 4 of the Rating of State Property Act, 1984

Residential Zoning

Residential zoning means any improved or unimproved site which has been zoned as a single residential, general residential or group housing zoning in terms of the applicable Zoning Scheme Regulations within the Knysna Municipal area and includes any special consent or departure for the use of any site with a different zoning for residential purposes.

Equivalent Erf

An Equivalent erf is a single residential property with a design water consumption demand of 400 Kl per annum and for augmentation purposes properties with zonings other than single residential will be levied on the number of equivalent erven based on the design water consumption demand for the zoning and size of the property.

Premises

Any vessel, boat, caravan, tent or similar object habitually occupied for residential purposes, any vacant immovable property and any structure on immovable property habitually occupied for residential and/or business purposes provided that :-

- where such structure consists of more than one residential and/or business unit each such unit shall be deemed to be premises for the purposes of this section, irrespective whether individually or bulk metered.
- each such unit deemed to be premises has a service connection to it or has a facility which has a service supply to it.

Water Closet And Urinal

Under these tariffs "pan" means a water closet or urinal, provided that for the purposes of the assessment of the annual sewerage service charges in respect of urinals, each two urinal stalls or every meter (or part thereof exceeding half a meter) of urinal wall shall be regarded as one "pan" (water closet).

Service Charge

The annual service charge is the fixed charge due by each premises as defined above and does not include any allowance for consumption and is levied irrespective whether consumption takes place or not.

Reading Period

The reading period for all consumption shall as far as is practicably possible be on a regular monthly cycle subject to:

The operational exigencies of staff availability, public holidays and inclement weather, the Council will not entertain any adjustment of an account rendered where the reading period and consumption derived for such account deviates from the normal reading period by 10 days or less, and

In such cases where the reading period exceeds the normal reading period by more than 10 days the onus shall rest on the consumer to apply, in writing, for the adjustment of the account which shall be on the basis of the monthly average derived from the previous three months consumption.

Standard-by-Law, Additional Electricity Supply By-Law and Additional By-Law

In these Electricity Tariffs "Standard-by-Law" means the Standard Electricity Supply By-Law promulgated and published under Provincial Notice 535/1987 dated 18 September 1987 and adopted by the Council under Provincial Notice 211/1988 dated 26 February 1988.

Where in the Tariff of Charges reference is made to the "Additional Electricity Supply By-Law" or the "Additional By-Law" it shall mean the Knysna Municipality : Additional Electricity Supply By-Law promulgated and published under Provisional Notice 1272/1978 dated 15 December 1978.

The tariffs scheduled herein shall be applicable to the classes of consumers set forth as follows, and in the event of the Council by special resolution having imposed an additional percentage levy in terms of section 187(5) of Ord. 20 of 1974, the increases charges shall apply :-

	Athletic and Sports Clubs operating on premises leased from the Council or occupied by them.					
6.1.1 (f)	<u>Tariff 11 : Availability</u>					
	An erf , with or without improvements, or, any individual flat or office suite held under sectional title deed, situated within the Municipal Area, which is not connected to the Council's Electricity Supply and which in the opinion of the Council, can reasonably be so connected.					
6.1.2	<u>TARIFF USE RESTRICTION</u>					
	No consumer shall be entitled to use more than one of the foregoing tariffs on any premises without the prior approval, in writing, of the Manager Electrotechnical.					

ELECTRICITY TRADING SERVICES: 2016 - 2017 IBT (Inclined Block Tariff)						
Item	Details	Frequency/ Measure/ Occasion	Tariff 2015/16 (14% VAT Incl)	Tariff 2016/17 (14% VAT Incl)	Tariff 2017/18 (14% VAT Incl)	Tariff 2018/19 (14% VAT Incl)
6.1.3	<u>ELECTRICITY RESALE RESTRICTION</u> The resale of electricity must comply with Section 20 of the Standard Electricity By-Laws.					
6.1.4	<u>SUPPLY CONTRACT</u> Electricity shall be supplied under these tariffs by contract made or implied, and, with the exemption of approved charges in tenancy, such contract shall be subject to the provisions of section 5 of the Additional Electricity Supply By-Law. If the applicant for an electricity supply is not the owner of the relevant premises, no such supply shall be given by the Council unless, and until such time as the permission of the owner of the premises, or his appointed agent, is given to Council in writing. In such an event the owner ceases to be a consumer in respect of such premises and he will upon again becoming a consumer of such premises have to pay the electricity deposit prescribed in paragraph 6.10.					
6.1.5	<u>BASIC CHARGES</u>					
6.1.5.1	<u>Conventional Metering</u> The fixed basic (service) charges shall be payable at the rate indicated from every month, or portion thereof, following the date upon which the consumer has applied for the services to be connected or upon which the Council is ready to effect such connection to the supply mains, whichever may be the later, irrespective of whether the supply of electricity is used or not.					
6.1.5.2	<u>Prepaid Metering</u> Prepaid meters will have a fixed daily rate.					
6.1.6	<u>HOLIDAY HOUSE</u>					
6.1.6.1	A single residential property at which electricity (kWh) has not been purchased for three consecutive months is classified as a "Holiday Home".					
6.1.6.2	In order to change the name of the consumer as well as the tariff codes etc. an administration fee will be charged whenever a holiday house becomes permanently occupied.					
6.1.6.3	The responsibility to prove that a house is/was physically permanently occupied, will be on the onus of the applicant.					
6.1.6.4	The same tariff as Domestic Prepaid Electricity Meter is applicable where a Daily Rate is charged. If the criteria is met, application can be made on a yearly basis for an electrical consumption assessment in order to qualify for the All Inclusive Energy Charge.

6.3.12	TARIFF 7[A] : BULK SUPPLY					
	Conditions Of Supply					
6.3.12.1	Minimum Notified Maximum Demand shall be 66 kVA					
6.3.12.2	The supply of electricity to consumers metered in terms of this tariff scale shall be at MV (Medium Voltage) or LV (Low Voltage) connection and at the discretion of the Manager					
6.3.12.3	This tariff shall be applicable to any service where the consumer contracts in writing to take supply or pay the minimum charges for an initial period of at least two (2) years after which the contract may be terminated subject to six (6) months written notice of termination by the					
6.3.12.4	On making application for a supply under this tariff the consumer's notified maximum demand shall not be exceeded by more than 25% without at least three (3) months notice having been given in writing to the Manager Electrotechnical. On expiry of such period of notice, or immediately if such increase has occurred without notification, the increased figure shall become the notified maximum demand for the purposes of this tariff					
6.3.12.5	The maximum demand charge shall be payable at the rate indicated for every month or portion thereof following the date upon which the consumer has applied for the service to be connected or upon which the Council is ready to effect such connection to the supply mains, whichever may be the later, irrespective of whether the supply of electricity is used or not. The said charge shall continue to be payable until the expiry of the period of notice required to be given and shall be based upon the notified maximum demand or the maximum demand of the installation. Such maximum demand shall be the maximum load of that installation sustained or averaged for any 30 minute period during any month. If so required by the Manager Electrotechnical, the maximum current in amperes sustained or averaged for any such 30 minute period in the heaviest load phase at the declared voltage of supply. Any demand meter, time switch or other

6.3.13.1	Available to customers with supplies less than 500V who can shift their load to defined time period					
6.3.13.1.1	Time of use tariff - Availability to bulk residential developments					
	The Time of Use (TOU) tariff will only be available for residential developments on a Commercial Bulk Supply after 60% of the erven in the development have houses build on the erven and occupation of the houses have been taken. The TOU tariff is not applicable to the new Residential Bulk Supply tariff (6.3.13.11)					
	Once a consumer has changed to the TOU tariff, a minimum stay period of 12 months is required. Once the 12 months have elapsed, application can be made to change back to the Maximum Demand Tariff. A 3 Month termination notice must be given.					
	Consumers must have the necessary electronic metering equipment installed and correctly programmed for the TOU at their cost.					
	Where existing Consumers consider conversion to TOU, it will be the Consumers' responsibility to do a tariff study.					
	The Reactive Energy Charge is applied to kVArh in excess of 30% (0,96 Power Factor) of kWh recorded during peak and standard periods. The excess reactive energy is determined per 30 minute integrating period and accumulated for the month and will only be applicable during high-demand season.

6.3.16	TARIFF 11 : AVAILABILITY CHARGE [see 6.1.1 (f)]					
6.3.16.1	Single residential	per annum	R 2,736	R 2,945	R 3,170	R 3,412
6.3.16.1.1	Other	per annum	R 7,524	R 8,099	R 8,718	R 9,384
	This charge is due and payable on 1 July each year by the owner of each erf or individual flat, shop or office suite held under Sectional Title Deed or sub-rental agreement which is not connected to the Council's mains and which, in the opinion of the Council, can reasonably be so connected. Should such erf, individual flat, shop or office suite be connected to the supply mains during the period in respect of which the annual charges per 6.3.18.1 or 6.3.18.2 were payable, such annual charge shall be adjusted for that year for the period calculated from the date of connection to the 30th of June of that year. Should the supply to any such erf, individual flat, shop or office suite be discontinued, then a pro-rata amount of the annual charge per 6.3.18.1 or 6.3.18.2, whichever is applicable, shall be levied from the date of disconnection to the 30th June of that year and thereafter annually for as long as supply is not taken from the					
6.3.16.1.2	Should the charge not be paid by 30 September in the year in which it became due and payable, interest at the standard rate defined.					
6.3.16.1.3	Property owners who have elected to pay their assessment rates in instalments shall be entitled to pay the charges referred to in sub-section 6.3.18.1 and 6.3.18.2 in equal monthly instalments, interest free, provided each instalment is paid by the last day of each month. Failure to pay such instalments timeously will result in the same interest mentioned in sub-section 6.3.18.4 above being payable for each month the property owner defaults.					
	6.4 SERVICE CONNECTIONS					
	6.4.1 Service Connection To Premises					
	The council shall provide a service connection between the supply main and the consumer's installation within the Council Area of supply as determined by the Electricity Control Board, in terms of the Standard By-Law. In all cases within the Council's area of supply the consumer shall, at no cost to the Council, provide a satisfactory cable trench on his property, for such service connection to the boundary line of the premises along a route indicated by the Manager					
	In the case of a Temporary Builder's Supply, the connection will be a 30Amp (maximum) supply that will be conventionally metered until the connection is swung to the permanent supply which will be a Prepaid Metering.					
	For Public Lighting and Gate House Controls, only a prepayment meter with a 30Amp (maximum) supply will be permissible.					
	6.4.2 Service Connection Metering Requirements					
	6.4.2.1 Single Phase Connections					
	In the case of single phase or three phase domestic and commercial connections, use will only be made of the Prepaid Metering system unless otherwise determined by the Manager

	Service Connection: Prepaid Meter	per connection	R 11,001	R 11,850	R 12,755	R 13,730
6.4.3.3	Commitment fee for pre-paid metered supply in self-help housing schemes	per connection	R 550	R 600	R 646	R 695
6.4.3.4	Where the distance from the Council's point of supply and the consumers point of control exceeds 50 meters, the consumer shall pay the additional costs plus 15% administration and supervision fees, based on such calculated costs.					
6.4.3.5	All service connections other than those described in paragraph (a) shall be charged at cost from supply mains to consumers point of supply inclusive of the Council's main switch, metering equipment and where applicable HV switch gear, transformers, HV and LV cabling and tariff circuit breaker plus 15% administration and supervision charges. In the event of the total cost being less than the appropriate fees in paragraph (a) the fees therein shall be payable.					
6.4.3.6	Where a new connection is required to premises from which a previous connection has been disconnected and removed, the fees and charges prescribed in sub-section (3) shall be payable, subject to adjustment for the depreciated value of any materials or equipment the Manager Electrotechnical may decide to re-use for the new service connection.					
6.4.3.7	Where in terms of the Standard By-Law accommodation is provided on the premises for the housing of the Council's transformer plant required to supply the consumer's premises as well as to supply the adjacent area, the connection fee shall be the cost of providing the medium voltage connection, The Council's main switch and metering equipment plus the pro-rata cost of the transformer and HV switch-gear plus 15% of the total cost in respect of administration and supervision charges.					
6.4.3.8	The total cost of connection fees shall be payable in advance.					
6.4.3.9	Conversion from conventional meter to prepaid meter.					
	This conversion fee only subsidizes the first change from 1 conventional meter to 1 prepaid meter. No 2nd Prepayment Meters are permitted. One meter per erf.					
	Single Phase		R 1,500	R 1,615	R 1,738	R 1,871
	Three Phase		R 2,100	R 2,260	R 2,433	R 2,619
6.5	SERVICE CALLS					
	When the Council is called upon by a consumer to attend to any fault or failure of supply at his premises and such fault or failure is not attributed to the Council's staff or equipment, the fee for such service in terms of Section 22 of the Standard By-Law shall be as follows :-					
6.5.1	DURING NORMAL WORKING HOURS					
6.5.1.1	- All Areas	per service	R 450	R 484	R 521	R 561
6.5.2	AFTER NORMAL WORKING HOURS					
6.5.2.1	- All Areas	per service	R 675	R 727	R 782	R 842
6.5.2	PREPAID METERING CHARGES					
6.5.2.1	Tariff change Admin Fee - single or 3Ph Prepaid Metering	per change	R 320	R 344	R 371	R 399
6.5.2.2	Vendors - Admin Charge for Token Validation	per service	R 114	R 123 R 0	R 132 R 0	R 142 R 0
6.5.2.3	Issue of Tokens that have been incorrectly purchased by the consumer on a different meter and not the consumer's meter.	per service	R 684	R 736	R 793	R 853

6.6	<u>DISCONNECTION AND RECONNECTION : CHANGE OF CONSUMER</u>					
6.6.1	Where premises have been disconnected upon termination of the supply agreement as result of change of consumer, or when a temporary disconnection of supply has been effected in terms of Section 28(1) and (2) of the Standard By-Law, reconnection shall be made after payment of the following:-					
6.6.2	<u>DURING NORMAL WORKING HOURS</u>					
6.6.2.1	- All Areas	per service	R 450	R 484	R 521	R 561
6.6.3	<u>AFTER NORMAL WORKING HOURS</u>					
6.6.3.1	- All Areas	per service	R 674	R 725	R 781	R 841
6.6.4	<u>DISCONNECTION AND RECONNECTION : NON-PAYMENT OF ACCOUNT</u>					
	When disconnection of the supply has been effected in terms of section 19 of the standard By-Law, reconnection shall be made subject to the approval of the Financial Services Director on payment of a basic fee as stated below, provided that no such approval shall be given if the full amount of the outstanding charges which have accrued in terms of these Tariff of Charges either prior to or during the period of disconnection, have not been paid, together with any outstanding deposit referred to in Section 6.10.					
	The basic reconnection fee payable for non-payment of account shall accrue and be due and payable whether the supply has been disconnected or not, provided that in all cases the Financial Services Director has issued written instructions to the Manager Electrotechnical to disconnect the supply to the premises. Notwithstanding such connection the ampere charge for the contracted supply shall accrue as if disconnection was not made.					
6.6.4.1	- All Areas					
	During normal working hours	per service	R 255	R 274	R 295	R 318
	After normal working hours	per service	R 639	R 688	R 740	R 797
6.6.5	When in terms of Section 28 of the Standard By-Law a temporary disconnection of supply has been effected at the consumer's request or as directed by the Manager Electrotechnical to enable such building alterations or additions to be made and such building is supplied with an overhead service connection, the Manager Electrotechnical may require the reconnection to be by means of an underground service connection. The cost, excluding the Council's main switch and metering equipment shall be borne by the consumer.					
6.6.6	When in terms of Section 28 of the Standard By-Law a temporary disconnection is made at the request of the consumer, the ampere charge for the contracted supply will accrue against the consumer and be paid by him in terms of these Tariff of Charges and Additional Electrical By-Laws as if such disconnection was not effected.					
6.7	<u>METER TEST</u>					
	When in terms of Section 58 of the Standard By-Law, a consumer requires a meter to be tested, the fee to be deposited at the office of the Municipal Manager Finance for each such meter shall be as follows :-					
6.7.1	<u>WITHIN THE MUNICIPAL AREA</u>					
6.7.1.1	- Single and Three phase meter (including Pre Paid meter)	per test	R 1,000	R 1,076	R 1,159	R 1,247
6.8	<u>SPECIAL METER READINGS</u>					
6.8.1	Where in terms of Section 59 of the Standard By-Law a consumer requires a special reading of a meter, such service shall be rendered by the Council on payment of the following fees :-					
6.8.1.1	All Areas	per service	R 450	R 484	R 521	R 561
6.8.2	In cases where a final account is required for an approved of tenancy is involved, the fee referred to in this section shall be waived.					
6.8.3	This sum will also be waived in cases where a special meter reading reveals that the last reading was incorrect and provided that such incorrect reading had not been processed for assessment purposes.					

ELECTRICITY TRADING SERVICES: 2016 - 2017 IBT (Inclined Block Tariff)						
Item	Details	Frequency/ Measure/ Occasion	Tariff 2015/16 (14% VAT Incl)	Tariff 2016/17 (14% VAT Incl)	Tariff 2017/18 (14% VAT Incl)	Tariff 2018/19 (14% VAT Incl)
6.9	INSPECTION AND TEST					
6.9.1	Where in terms of Section 53 of the Standard By-Law the inspection or test of an installation is required, the following fees shall be payable before each such inspection or test :-					
6.9.1.1	Within the Municipal Area	per service	R 500	R 538	R 579	R 624
6.10	DEPOSITS					
	The Municipal Manager Finance may accept bank or such other suitable guarantees in lieu of deposits which exceed R 1 000.00. Before obtaining a supply of electricity from the Council's mains, in terms of Section 17 of the Standard By-law, all consumers must pay cash deposits as set out below :-					
6.10.1	TARIFF 1					
	Where metering is done by means of the Prepaid Meters, no deposit will be payable.					
6.10.2	TARIFF 2					
	With the use of the rotating disc meter the deposit will be six times the total charge of the ampere rating of the circuit breaker installed and which does not exceed 40 ampere, and five times the total charge of the ampere rating of the circuit breaker or circuit breakers installed if such charge exceeds 40 amperes.					
6.10.3	TARIFF 3					
	Three times the total charge of the ampere rating of the circuit breaker or circuit breakers installed.					
6.10.4	TARIFF 5					
	Where metering is done by means of the Prepaid Meters, no deposit will be payable.					
6.10.5	TARIFF 7					
	Three times the demand charge based on 70% of the notified maximum demand, Bulk Supply Section 6.3.14.4 notice is given of an intended increase in the notified maximum demand.					
6.10.6	DEPOSIT ADJUSTMENT					
6.10.6.1	When a domestic consumer fails to pay the account by the due date and his name appears on the Disconnection List thereafter issued by the Financial Services Director, the deposit of the consumer shall be reviewed and adjusted by the Financial Services Director to cover an account for electricity and water for a period of 3 months based on the consumers consumption over the previous 6 months.					
6.10.6.2	When, at the request of the consumer the rating of the tariff circuit breaker is increased, the consumer must augment his deposit by an amount fixed by the Financial Services Director.					
6.10.6.3	Where the rating of the main circuit breaker is decreased the consumer is entitled to claim in writing a refund of the difference between the previous deposit and the deposit applicable to the lower rating. In the above tariffs the words "charge" and "amount" shall be that prescribed.					
6.10.6.4	That the Council agrees to the Financial Services Director conducting a review of all bank guarantees lodged in lieu of a electricity consumer deposit every two years in August and that this process be initiated by immediate review.					
6.10.6.5	The increased electricity guarantee to be lodged with the Council in terms of paragraph 6.10.7.4 shall be the equivalent amount payable under the applicable electricity tariff which the consumer, in the Financial Services Director's opinion, is likely to consume during three consecutive months and is based on the consumption over the previous 6 months.					
6.10.6.6	Any security deposited by a customer in cash or as a bank guarantee for a supply of electricity shall cover a supply of 3 months and shall be held as security to be offset against the customers account only in the event of termination of the supply agreement or default of the consumer.					
6.10.6.7	In the event that a customer has not claimed a refund of a cash deposit, after terminating the supply agreement or has for whatever reason ceased to receive a supply for one year, then on the expiry of one year such deposit shall be forfeited to the Council.
