SPECIFICATIONS

1. **Legal framework of the appointment**

   Under the current Construction regulations, the responsibilities and liabilities to ensure health and safety on a project remain with client and failure to comply with these regulations is a criminal offence.

   As set out regulation 5(6) of the Regulations, The client may appoint a competent person as an Agent in writing to act as the client’s shall as far as is reasonably practicable, apply to the appointed Agent.

2. **Proposed scope of work**

   The scope of work of the Agent will in general cover the requirements of regulation 5 of the Regulations. More specifically, it will entail the following:

   2.1 Provide a project specific health and safety specification to the Principal Contractor. A general specification has been done by the Client by including this specification in the tender documents which the tenderers cost to comply with the Regulations in their tenders.

   2.2 Ensure that the principal contractor to be appointed has the necessary competencies and resources to carry out the construction work safely.

   2.3 Take reasonable steps to ensure all contractors appointed by the client to comply with these Regulations.

   2.4 Ensure before any work commences on a site that the principal contractor is registered and in food standing with the compensation fund or with a licensed compensation insurer as contemplated in the Compensation for Occupational injuries and Diseases Act, 1993 (Act No.130 of 1993).

   2.5 Discuss and negotiate with the Principal Contractor the contents of his draft health and safety plan for final approval for implementation to ensure that it covers all the aspects it is required to in terms of the Act. This will be done as soon as is practicable after the Contractor has been appointed but before any construction work is executed.

   2.6 Finally approve the health and safety plan implementation. This will also be done before the Contractor will be allowed to commence with the construction work.

   2.7 Take reasonable steps to ensure each contractor’s health and safety plan contemplated in regulation 7(1)(a) is implemented and maintained.

   2.8 Ensure that periodic health and safety audits and document verification are conducted at intervals mutually agreed upon between the principal contractor and any contractor, but at least every 14 days.

   2.9 Ensure that a copy of the health and safety audit report contemplated in the paragraph above is provided to the principal contractor within seven days after the audit.

   2.10 Stop any contractor from executing a construction activity which poses a threat to the health and safety of persons which is not in accordance with the client’s health and safety specifications and the principal contractor’s health and safety plan for the site.

   2.11 Ensure that the health and safety file contemplated in regulation 7(1) (b) is kept and maintained by the principal contractor.
2.12 Manage the health and safety and monitor the execution of the construction work to ensure that this is being done in accordance with the Contractor’ health and safety plan this contract.

- Monitoring by the Agent will be carried out at an absolute minimum of 2 times per month, but the responsibility remains with the Agent to ensure that all Health and Safety requirements are adhered to, thus inspections may be required on a weekly or daily basis.
- Monitoring will consist of a walk through inspection of the site together with the auditing of all register and documents the Principal Contractor and Sub-Contractors are required to maintain.
- A monthly non-compliance report must be submitted to the client in which all instances where the Principal Contractor has deviated from the requirements of his health and safety plan. Together with the actions taken by the Agent, will be recorded.

2.13 On completion of the contract, all relevant documentation generated by the Principal Contractor as well as a final non-compliance report must be submitted to the client.

3. Contract data

It is expected that construction will begin in April 2017 and end March 2018. Construction value is expected to be approximately R21 million. This work will cover supply and installation of new 400 mm GRP pipes to upgrade the Knysna Bulk Water Supply. We expect one to two construction teams to be on site. The successful Agent will be expected to be on site at sufficient intervals and for sufficient time to ensure adequate supervision.

6. Conclusion

Should your quotation be successful you would be appointed directly by the Knysna Municipality in terms of their standard conditions for Service Providers.

1. EVALUATION

All bids will be evaluated by a panel on the basis of functionality (100%) and there will not be a price evaluation. The intention of this expression of interest is to have a list of approved service providers to place advertisements for the municipality. Quotations will be provided upon submission of the advertisements and approved by the official responsible for the budget for advertisements. It was decided to execute the procurement process in this way as the size and frequency of advertisements are difficult to determine or standardize.

Regarding functionality the following criteria will be applicable and the maximum weighting of each criterion is indicated in brackets:
