KNYSNA MUNICIPALITY

MAKING HEADWAY ON SERVICE DELIVERY – ACCADEL FOR THE KNYSNA MUNICIPALITY

During the past three months, we have made great strides in improving basic service delivery. For example, in September, we spotted hope and breathed dignity to around 30 families in Lapland, Rheemondal and 120 families in Die Gat, Sedgefield when we provided them with electricity.

Furthermore, we recently handed over 16 replacement homes in Beverly Hills, Sedgefield. These structures replaced the homes lost in a devastating fire on July 22. Moreover, the municipal restored dignity to elderly persons in October when our Executive Mayor, Elenore Bouw-Spies and the Western Cape Human Settlements Minister MEC Bonginkosi Madikizela handed over houses in the Oom-J-Poort project.

The municipality made further headway with basic service delivery when it announced that a whopping R137 million will be spent on improving the quality of many Great Knysnas roads during this financial year.

Residents can expect to see more done this financial year as various projects are in their planning phase and several campaigns are heading your way!

With all the service delivery taking place, the municipality has also received some awards which include two blue flags, best air quality and a housing accolade.
