

Accolade for Sedgefield Process Controllers

At an event to acknowledge the vital work done by process controllers, Sedgefield Waste Water Treatment Works was awarded first runner up position in the category "Best Waste Water Treatment Works (less than 5 mega-litre/day)."

The event was hosted by the Department of Water and Sanitation (DWS) in partnership with the Water Institute of SA in December 2019. Their aim is to acknowledge Process Controllers and Municipalities for their work done to ensure sustainability, their ability to provide communities with safe drinking water and to protect precious water resources.

Knysna executive deputy mayor, Aubrey Tsengwa, expressed his pleasure with the accolade. "Congratulations to Calvin Jafta (Superintendent) and Calvin Barnard (Foreman) and the rest of the Sedgefield Water & Sewerage team - Knysna Municipality is fortunate to have qualified and dedicated personnel working with us."
