Expanded Public Works Programme delivers results

All the EPWP projects are active, with R799 492.47 of the budgeted allocation of R1 254 000 for the 2020/2021 financial year having been spent thus far. 74 work opportunities have been achieved out of a target of 70 in various municipal sections to facilitate a number of EPWP projects approved for 2020/2021. Surpassing the set target of work opportunities is proof of the EPWP's success.

25 work opportunities have been created within the Environmental Management Department to assist with the COVID-19 food security program, one person has been appointed in the same department to work with the invasive plant management team and another 23 to work with the river health section. 14 EPWP appointments were made in the Parks and Recreation Section to assist with the maintenance of play parks and the open air gym, and another 10 waste ambassadors were appointed in the Solid Waste Department. The Economic Development Department gained one data capturer.
