6	ELECTRICITY TRADING SERVICE				
6.1	CLASS OF CONSUMER				
6.1.1 (a)	Tariff 1 and 2 : Domestic				
	Private dwellings, individual flats, unlicensed residential, social clubs, libraries, museums, churches and church halls, charitable institutions, non-profit organisations, homeowners associations and electric gates not exceeding a rating of 60 Amp per phase. In the case of consumers in the Housing Schemes the maximum rating shall be 20 Amp, but this maximum may be exceeded at the discretion of the Manager Electrotechnical. All new applications will only be metered by means of a prepaid meter.				
6.1.1 (b)	Tariff 3, 4 and 5 : Commercial				
	Any new commercial or industrial consumer not exceeding a rating of 100 Amp per phase, will only be metered by means of a prepaid meter. Commercial consumers may reconnect on an existing credit meter. Any change from conventional to prepaid metering will be for the cost of the consumer. Only 30; 60 and 100 Amp ratings are available.				
6.1.1 (c)	Tariff 7 : Bulk Supply				
	Any consumer having a notified maximum demand in excess of 66 kVA (viz. 100Amps).				
6.1.1 (d)	Tariff 9 : Street Lighting				
	Installations maintained by the Council.				
6.1.1 (e)	Tariff 10 : Sports Clubs				
	Athletic and Sports Clubs operating on premises leased from the Council or occupied by them.				
6.1.1 (f)	Tariff 11 : Availability				
	An erf, with or without improvements, or any individual flat or office suite held under sectional title deed, situated within the Municipal Area, which is not connected to the Council's Electricity Supply and which in the opinion of the Council, can reasonably be so connected.				
6.1.2	TARIFF USE RESTRICTION				
	No consumer shall be entitled to use more than one of the foregoing tariffs on any premises without the prior approval, in writing, of the Manager Electrotechnical.				
6.1.3	ELECTRICITY RESALE RESTRICTION				
	The resale of electricity must comply with Section 20 of the Standard Electricity By-Laws.				
6.1.4	SUPPLY CONTRACT				
	Electricity shall be supplied under these tariffs by contract made or implied, and, with the exemption of approved charges in tenancy, such contract shall be subject to the provisions of section 5 of the Additional Electricity Supply By-Law. If the applicant for an electricity supply is not the owner of the relevant premises, no such supply shall be given by the Council unless, and until such time as the permission of the owner of the premises, or his appointed agent, is given to Council in writing. In such an event the owner ceases to be a consumer in respect of such premises and he will upon again becoming a consumer of such premises have to pay the electricity deposit prescribed in paragraph 6.10.				
6.1.5	BASIC CHARGES				
6.1.5.1	Conventional Metering				
	The fixed basic (service) charges shall be payable at the rate indicated from every month, or portion thereof, following the date upon which the consumer has applied for the services to be connected or upon which the Council is ready to effect such connection to the supply mains, whichever may be the later, irrespective of whether the supply of electricity is used or not.				
6.1.5.2	Prepaid Metering				
	Prepaid meters will have a fixed daily rate.				
6.1.6	HOLIDAY HOUSE				
6.1.6.1	A single residential property at which electricity (kWh) has not been purchased for three consecutive months is classified as a "Holiday Home".				
6.1.6.2	In order to change the name of the consumer as well as the tariff codes etc. an administration fee will be charged whenever a holiday house becomes permanently occupied.				
6.1.6.3	The responsibility to prove that a house is/was physically permanently occupied, will be on the onus of the applicant.				
6.1.6.4	The same tariff as Domestic Prepaid Electricity Meter is applicable where a Daily Rate is charged. If the criteria is met, application can be made on a yearly basis for an electrical consumption assessment in order to qualify for the All Inclusive Energy Charge.				
6.2	SUPPLY RATING				
6.2.1	ALTERATION OF SUPPLY RATING				
	In respect of tariffs 1, 2, 3, 4 and 5 one (1) month's written notice shall be given if a consumer wishes to alter the rating of the Council's circuit breaker installed under these tariffs, except that a reduction in size will only be permitted in respect of tariffs 1 and 2 within 6 months of a previous change in the circuit breaker size . The following fees are payable in advance and must accompany the written notice for a change in circuit breaker size :-

6.5	SMALL SCALE EMBEDDED GENERATION (SSEG)				
(i)	SSEG refers in this instance to consumers who wish to fit a Solar generation plant (PV plant) to supplement their energy consumption by harvesting solar energy for their own use. These systems are generally Grid Tied to the municipal network allowing the consumer to draw energy (electricity kWh or Units) from the municipal network when their PV plant does not produce enough energy for their use. In the opposite case where the PV plant is producing more energy than the consumer is using this excess energy is fed back to the municipal network and the consumer receives some credit for this energy they supply to the municipality.				
(ii)	All consumers who wish to have a Grid Tied Solar plant must make application to the municipality via the Electrical Engineering Department, and this must comply with the municipal regulations as published. The applicant will be required to sign a contract with the municipality to ensure all conditions are met.				
(iii)	The consumer will have to change to a Time of Use (TOU) tariff and will be required to fit a "4-Quadrant" electricity meter with a module to the municipalities specification for the municipality to read the meter remotely.				
(iv)	The consumer must remain a net consumer of energy in the year as no cash will be paid to the consumer.				
(v)	All installation work is to comply with SANS10142-1 Rev2, and any new regulation that may be published, and a copy of a valid Certificate of Compliance must be issued to the Electrical Engineering Department.				
(vi)	The SSEG tariffs are in the process of being refined in terms of a municipal Cost of Supply study currently in progress. The below figures may change in the year 2019/2020.				
(vii)	Only for customers with a plant under 1MW				
(viii)	A sign must be placed outside the property to indicate that the premises generates electricity				
(IX)	This Tariff will only be applicable after council approves SSEG Policy

6	ELECTRICITY TRADING SERVICE				
(ii)	The supply of electricity to consumers metered in terms of this tariff scale shall be at MV (Medium Voltage) or LV (Low Voltage) connection and at the discretion of the Manager Electrotechnical.				
(iii)	This tariff shall be applicable to any service where the consumer contracts in writing to take supply or pay the minimum charges for an initial period of at least two (2) years after which the contract may be terminated subject to six (6) months written notice of termination by the consumer.				
(iv)	On making application for a supply under this tariff the consumer's notified maximum demand shall not be exceeded by more than 25% without at least three (3) months notice having been given in writing to the Manager Electrotechnical. On expiry of such period of notice, or immediately if such increase has occurred without notification, the increased figure shall become the notified maximum demand for the purposes of this tariff.				
(v)	The maximum demand charge shall be payable at the rate indicated for every month or portion thereof following the date upon which the consumer has applied for the service to be connected or upon which the Council is ready to effect such connection to the supply mains, whichever may be the later, irrespective of whether the supply of electricity is used or not. The said charge shall continue to be payable until the expiry of the period of notice required to be given and shall be based upon the notified maximum demand or the maximum demand of the installation. Such maximum demand shall be the maximum load of that installation sustained or averaged for any 30 minute period during any month. If so required by the Manager Electrotechnical, the maximum current in amperes sustained or averaged for any such 30 minute period in the heaviest load phase at the declared voltage of supply. Any demand meter, time switch or other apparatus necessary for the determination of the maximum demand shall be deemed to be a meter in terms of the Standard By-Law.				
6.6.2	VACANT ERVEN - BULK Supply to Developments				
(a)	This fee shall apply to vacant erven only. In the case of developments taking the electricity supply at bulk, the availability fee payable in respect of vacant erven shall be waived, however the Network Access charge shall be payable on the Notified Demand or the highest recorded maximum demand for the month in question, whichever is the greatest.				
6.6.3	CLOSED HOUSING DEVELOPMENTS - RESIDENTIAL BULK SUPPLY TO CLOSED HOUSING DEVELOPMENTS				
(a)	Closed Housing Developments that are metered by means of a Bulk meter can annually apply in writing for the Residential Bulk Low Voltage Tariff. This tariff is only for resellers of electricity to housing developments, sectional title schemes and blocks of flats. This tariff also does not allow for Time of Use . Eligibility for the new tariff will be determined by the Director of Finance and will be at his discretion. Application must be made one (1) month before the new financial year (01 June).

i)	Available to customers with supplies less than 500V who can shift their load to defined time periods				
ii)	Time of use tariff - Availability to bulk residential developments				
	The Time of Use (TOU) tariff will only be available for residential developments on a Commercial Bulk Supply after 60% of the erven in the development have houses build on the erven and occupation of the houses have been taken. The TOU tariff is not applicable to the new Residential Bulk Supply tariff (6.3.13.11)				
iii)	Once a consumer has changed to the TOU tariff, a minimum stay period of 12 months is required. Once the 12 months have elapsed, application can be made to change back to the Maximum Demand Tariff. A 3 Month termination notice must be given.				
iv)	Consumers must have the necessary electronic metering equipment installed and correctly programmed for the TOU at their cost.				
v)	Where existing Consumers consider conversion to TOU, it will be the Consumers' responsibility to do a tariff study.				
vi)	The Reactive Energy Charge is applied to kVAh in excess of 30% (0,96 Power Factor) of kWh recorded during peak and standard periods. The excess reactive energy is determined per 30 minute integrating period and accumulated for the month and will only be applicable during high-demand season.

6	ELECTRICITY TRADING SERVICE				
6.9.5	This charge is due and payable on 1 July each year by the owner of each erf or individual flat, shop or office suite held under Sectional Title Deed or sub-rental agreement which is not connected to the Council's mains and which, in the opinion of the Council, can reasonably be so connected. Should such erf, individual flat, shop or office suite be connected to the supply mains during the period in respect of which the annual charges per 6.3 or 6.4 were payable, such annual charge shall be adjusted for that year for the period calculated from the date of connection to the 30th of June of that year. Should the supply to any such erf, individual flat, shop or office suite be discontinued, then a pro-rata amount of the annual charge per 6.3 or 6.4, whichever is applicable, shall be levied from the date of disconnection to the 30th June of that year and thereafter annually for as long as supply is not taken from the Council's mains.				
6.9.6	Should the charge not be paid by 30 September in the year in which it became due and payable, interest at the standard rate defined.				
6.9.7	Property owners who have elected to pay their assessment rates in instalments shall be entitled to pay the charges referred to in sub-section 6.3.18.1 and 6.3.18.2 in equal monthly instalments, interest free, provided each instalment is paid by the last day of each month. Failure to pay such instalments timeously will result in the same interest mentioned in sub-section 6.3.18.4 above being payable for each month the property owner defaults.				
6.10	SERVICE CONNECTIONS				
6.10.1	SERVICE CONNECTION TO PREMISES				
6.10.1.1	The council shall provide a service connection between the supply main and the consumer's installation within the Council Area in terms of the Standard By-Law. In all cases within the Council's area of supply the consumer shall, at no cost to the Council, provide a satisfactory cable trench on his property, for such service connection to the boundary line of the premises along a route indicated by the Manager Electrotechnical.				
6.10.1.2	In the case of a Temporary Builder's Supply, the connection will be a 30Amp (maximum) supply that will be conventionally metered until the connection is converted to the permanent supply which will be a Prepaid Metering.				
6.10.1.3	For Public Lighting and Gate House Controls, only a prepayment meter with a 30Amp (maximum) supply will be permissible.				
6.10.2	SERVICE CONNECTION METERING REQUIREMENTS				
6.10.2.1	In the case of single phase or three phase domestic and commercial connections, use will only be made of the Prepaid Metering system unless otherwise determined by the Manager Electrotechnical.				
6.10.3	CONNECTION FEES TARIFFS 1,2,3 and 5				
6.10.3.1	Connection fee for Single phase:

10.1.3.4	The Director: Community Service may on the recommendation of the Chief Fire Officer make concessions to attendance and operational charges by up to 80% where a fire or related services have been rendered to <i>bona fide</i> charitable organisations. In formulating the recommendation, the Chief Fire Officer shall take into consideration the exigencies of the service at the time of the incident; the distance from the nearest available resources; the condition of the premises regarding fire fighting equipment, emergency exits and the management of fire hazards; the extent to which damage could not be prevented by the Fire & Rescue Service; the frequency of similar occurrences on the same premises or any other relevant factor.				
10.1.3.5	The Director: Community Services may, on the recommendation of the Chief Fire Officer, agree not to charge for the attendance and operational charges where a fire or related service has been rendered to a Department (SANPark's) that renders a fire fighting service within the boundaries of the Knysna Municipality. The Chief Fire Officer shall take into consideration the exigencies of the service at the time of the incident; the distance from the nearest available resources regarding firefighting equipment and the management of fire hazards; the extent to which damage could not be prevented by the Fire & Rescue Service; the frequency of similar occurrences on the same premises or any other relevant factor and that same Department not invoice/bill the Fire & Rescue Service for similar fire fighting services rendered by the Knysna Municipality.				
10.1.3.6	The Chief Fire Officer in consultation with the Director: Community Services consider a reduction of charges up to a maximum of 50% for all written applications.				
10.1.3.7	The Director: Community Services in consultation with the respective departmental heads may reduce all tariffs and fees as approved by Council for this Directorate up to a maximum of 50% of the actual amounts to be billed. All applications for such reduction to be submitted in writing to the office of the Director: Community Services. All decisions made in terms of such authority to be reported to the Office of the Municipal Manager.
